dubdave (biel/bienne) is djing & producing since a long long time. his homeland is the bilingual & multicultural small town biel/bienne, where a lot of prolific producers, djs and promoters live. dave is part of the hiphop combo selladoor, producing the somewhat obscure „backpacker hiphop“. albeit he is coming from hiphop, he has a most solid anchor in dubstep and contemporary bass music, playing countless sets on many different occasions in the past years. be prepared for an as eclectic as wise selection of dope basslines! - streetartist **tofu** (zürich) paints live on the walls of our tree park studio during this show!
