with **uhuruku** (zürich) we have an as original as unpredictable music lover, dj & producer in our show. his background includes dj krush, king tubby, the doors, sun ra, cypress hill, bob marley, pink floyd & miles davis ...as well as studies in communication, film, social and economic history. moreover, he declares the good old cassette tape to his preferred sound carrier! as he recently explained that his ideal listeners should be able to keep their eyes and ears wide open and find "beauty in a sea of ugliness", we're nothing than nosey how his obscure, cranky sounds from the fields of techno & house will smell! - **new.com**'s warm-up seamlessly shifts from rocksteady to dub into digi-dub & early dancehall, while **greg** in the background prepares to upholster the wall of our studio with the photographed vinyls from recent shows.
