tree park studio has to be cleared by end of may 2014. as we explained in our threepart interview for zweikommasieben magazine, its adress was from november 2012 a preliminary opportunity to join all kind of artists in a building with - believe it or not - 120 rooms! our beloved studio pretty quickly turned out to be a thrilling radio station, perfect production & mixing space, ideal meeting point, confidential chat room & calm workspace in one. we're especially proud of the eight large illustrations on the walls that have been developed offhand by local streetartists during the two and a half hour productions of our video live streamed podcasts: **elf** (035-1212), **snyr** & **osrok** (036-0113), **robi the dog** (037-0213), **sierpinski stvan triangle** (039-0413), **oibel1** (040-0513), **tofu** (042-0713), **brainfart** (043-0813) & upholsterer **greg** (041-0613 & 044-0913)! good luck that these happenings are well documented, because the paintings will vanish now... looking back on so many extraordinary exciting collaborations with in-house friends as well as guests - producers, djs, visual- & streetartists - we want to give our thanks to all who joined, including these brilliant guys who made "kirche 248" real: lukas, lorenzo & raffael! - in 051-0514, **new.com** (comfortnoise, dubexmachina, bold; zh) is enjoying tree park studio for the very last time by displaying a large variety of well elaborated basslines in the fields of dub, drone, techno, bass music, foundation dubstep & even drum'n'bass.
